

When there's something strange
with your progress note . . .
Who ya gonna call?

Critical Document Improvement

We are Registered Nurses and Coders reviewing your medical team's documentation, tests and orders during your hospital inpatient stay to see if the record reflects a clear, accurate and complete picture of the resources utilized for the care received and how complex the condition of the patient.

Charge Capture

We are Registered Nurses reviewing charges during your Emergency Department or hospitalization visit. Our mission is to be your advocate to ensure charges are accurate and fairly captured for the services provided based on the healthcare team documentation and billing rules.

**Ensuring Optimal Documentation
One Chart at a Time!**
