 - Cases
 - Cases where CDI review is required
 - Cases reviewed by CDI team
 - Queries
 - Volume of Queries
 - Responses by physician
 - Hospital Level Metrics
 - CMI
 - CC/MCC Capture %

CDI Length of Stay Report

- Definition and scope of report
 - Provides a daily list of all IP cases currently in the hospital with a length of stay above 3 days.
 - Sent directly to all members of the CDI, and Case Management teams, as well as the CFO at each hospital.
- Report usage
 - CDI Team
 - Easily, and clearly communicate with clinical and non-clinical staff the status of each account
 - Identify cases without CC/MCC that have remained IP beyond GMLOS for concurrent reviews and 'next steps' for maximizing DRG
 - Case Management
 - Report provides synopsis of CDI reviews for each case
 - Allows quick escalation of any problems to leadership
 - Daily Rounds
 - Provides basis for discussion on daily physician rounds
 - Increases communication and visibility of CDI team
